## SECTION J @ BEIJING+30

# SAFEGUARDING WOMEN'S COMMUNICATION & DIGITAL RIGHTS

The Beijing Platform for Action's Section 'J' called attention to the centrality of media and digital technologies for gender equality and women's empowerment. 30 years later, indicators of change evidence a mix of snail's pace progress on some measures, stagnation on others and regression in yet others. Panelists will evaluate the current context and the status of implementation of Section J in the regions. The discussion will highlight opportunities to advance the gender and communication agenda.
